BEFORE BREAKFAST SPEECHES BY COX

Addresses Crowds At Toledo and Other Cities On Start of His Swing Around Circle

(By Associated Press)

En Route With Governor Cox, Sept. 3.—The "western swing" of Governor Cox opened today with before-breakfast rear-platform addresses to a railroad station crowd at Toledo, while Cox was en route to Michigan. "We are in the fight to win," said Governor Cox at Toledo; "we will win because we deserve to win. He urged the League of Nations and referred to the present disagreement over German indemnities and Senator Harding's plan to substitute The Hague tribunal for the league. He said, "That institution was closed up before the war. I imagine there are bats in the belfry and spiderwebs everywhere. It was a distinct failure and failed to prevent the war in 1914. The opposition candidate says he will go back, open this old institution and try to keep house there."

Concerning the labor issue he asserted the republicans are receiving contributions from persons who would substitute the bayonet for the Golden Rule under a reactionary national administration. He said, "The senate oligarchy has stolen and taken charge of the republican party." A number of other addresses were made to crowds at stations.

G. O. P. TO POUR MONEY INTO KENTUCKY

Chicago, Sept. 3.—H. G. Garrett, of Winchester, Ky., chairman of the Kentucky Ways and Means committee of the National committee, has been subpoenaed to appear before the senate committee, it became known here late last night.

Senator Miles C. Poindexter, chairman of the Republican National Senatorial Campaign committee, yesterday testified before the Kenyon senate investigating committee that Kentucky was regarded as one of the battle grounds in the fall campaign, and that the efforts of his committee would be directed toward the success of the republican program in that state.

The four days of investigation here have shown in regard to the Kentucky campaign the following facts:

First.—That the National committee has received in contributions from the state \$13,000.

Second.—That the senatorial committee will contribute to the state at least \$9,000.

Third.—That the National Young Men's Republican League will contribute \$5,000.

Fourth.—That three other organizations are at work in the state endeavoring to collect funds for the G. O. P. program.

Fifth.—That all of the above sources are merely arms of national organizations supplementing the main local campaign drives from which the bulk of receipts must come, especially in the case of state contests.

Sixth.—That the figures cited are the minimums given under sworn testimony which admitted the possibility of greater amounts in every case.

SUPREME COURT ON EMPLOYER'S RIGHTS

(By Associated Press)

New York, Sept. 3.—James W. Gerard, former Ambassador to Germany, accepted the chairmanship of the finance committee of the Democratic National Committee, it was announced at Democratic National headquarters here today. Gerard will have general supervision of the collection of Democratic campaign funds.

That Terrible Backache

from which so many women suffer is significant of organic trouble. It tells, with other symptoms, such as headaches, nervousness, and depression, that nature requires assistance. For forty years Lydia E. Pinkham's Vegetable Compound, a simple remedy made from roots and herbs, has been the one effective remedy in such cases. It speedily removes the cause and restores the system to a healthy, normal condition.

Bond Vote In Letcher

Whitesburg, Ky., Sept. 3.—An election in Letcher county has been called to vote on a \$400,000 bond issue for good roads. Public sentiment seems to be overwhelmingly in favor of the bond issue. With federal and state aid nearly \$1,000,000 would then be available for highways in this county.

Dr. U. V. Williams, Frankfort, is dead at the age of 84, after a prolonged illness due to old age.

Weather For Kentucky
Fair tonight and Saturday; moderate temperature.

JUDGE HUNT DEAD

(By Associated Press)

Lexington, Ky., Sept. 3.—Judge Joseph D. Hunt, 82 years old, notor of the Fayette county Bar and former Circuit Court Judge of this district, and one of the most prominent lawyers in Central Kentucky, died at his home here today after an illness of six weeks.

ALCORN WAIVES PRELIMINARY HEARING

Wife Refused To Recognize Him In Court Room and Sticks To Her Wounded Brother

Thomas Alcorn, of near Big Hill, who is charged with shooting his brother-in-law, Mount Pursivall, with murderous intent, who was to have had his examining trial Friday morning in county court, waived preliminary examination, and the case will be heard together with the list already made up for the October term of court.

Pursivall, who has been in the P. A. C. hospital for some time, was able to be out and made his way to the court room, but did a large number of other witnesses summoned for the hearing. The latter were greatly surprised at the turn of affairs and bewailed their luck of losing a day's work in coming to Richmond, then being sent home without giving testimony.

Pursivall, who is but a boy, presents a pitiful appearance, and evinces almost constant pain as a result of the effects of the shot which penetrated his shoulder and left arm.

He claims he was shot by Alcorn while passing the latter's house and denies much of the story as related by Alcorn some time ago. Pursivall claims his sister, Alcorn's wife, will have nothing to do with her husband, alleging he treated her in an unmerciful manner. The young woman would not recognize her husband nor converse with him in the court room. It is said she will be one of the main witnesses against her husband when the trial is at hand.

Young Pursivall states he has been making his home near Big Hill with a relative and presumed his brother-in-law blamed him for their marital trouble.

The Normal, Young Mr. Llewellyn, son of Attorney Llewellyn, one of the most prominent and able lawyers at any mountain bar, was in Richmond Thursday making arrangements to send his sister to the Normal.

COAL SELLS AT \$4 IN NEIGHBOR COUNTY

Completion of Pike From Madison Into Jackson Would Prove Boon To Both Communities

Although Richmond coal consumers are paying around \$15 a ton for coal, in an adjoining county—Jackson—coal is being delivered to wagons at \$4 per ton.

What possibilities lie in the completion of the proposed pike over Big Hill and into Jackson county.

A Daily Register reporter at

McKee this week on business was

told that Jackson county people are deeply anxious for the building of this road. They have voted their \$250,000 in road bonds some time ago, and have loaned this sum to the state with the assurance

from State Commissioner of

Roads Joe S. Boggs that the highway from Richmond through

to McKee will be one of the early state highway projects to be built through.

From a Madison county

standpoint, the pretty thing

about it is that Madison need

build only about two miles of real

pike to connect with the Jackson

county road.

The construction of this pike and opportunity to

haul coal into Madison from the

many producing mines of Jackson

would very quickly save the

taxpayers of Madison in cost of

coal alone far more than the pike

would cost to build and maintain.

In addition to the possibility of

buying coal at something like former normal prices, the incentive

to increase business with Madison's neighbor county would be

tremendous. As it is now thousands

of head of stock are driven

through from Jackson, Clay and

even counties farther back in the

mountains, to Richmond county

day sales. With a good pike avail-

able, Richmond and Madison

county would easily become the

natural outlet for the rich territory

which lies in the hinterland.

Madison should let no opportunity

escape to secure the construction

of that road as quickly as possible.

There are several hundred citizens of Jackson al-

ready in Madison, and all feel

kindly toward the county of their

ancestors. Others back home are

near Big Hill with a relative and

presumed his brother-in-law blamed

him for their marital trouble.

John Embry, alleged slayer of

Luther Young, who escaped from

the St. Joseph Hospital Tuesday

morning while his special guard

Newton Stont, slept, had given

himself up to Estill county officials.

No details were included in

the communication.

FOR COUNTY JAILER SAM HUNTER.

DORMITORY WORK PROGRESSES

Work of excavation for the dormitory for boys at Eastern Normal has been completed and the foundation for the new building will be laid next week, with the result that the building will soon be under way. The excavation for the building for girls has been started and is well under way.

MR. BAXTER AT THE FAIR

County Road Engineer Baxter is home from the Blue Grass fair at Lexington. He said it was the biggest and best fair he had attended for years, and also admitted this was the only one he had attended for a number of years. The attendance, he stated, was, as others have said, one of the ordinary, being the largest in years.

Just What She Needed

"I used a bottle of Chamberlain's Tablets some time ago and they proved to be just what I needed," wrote Mrs. Volta Bankson, Chillicothe, Md. "They not only relieved me of indigestion and toned up my liver and rid me of bacheache and dizziness that I had been subject to for some time. They did me a world of good and I will always speak a good word for them."

Sept.

REMOVAL OF DEBRIS

The basement of the old gymnasium building site is being filled with dirt from nearby and the debris from the building recently destroyed by fire is being removed. The site will be cleared and it is probable that if it is decided to construct another building of this character it will occupy the same site.

Mr. Tom Caden spent Thursday in Lexington.

TRAINED NURSE ADVISES PEOPLE

"I was a great sufferer of stomach and liver trouble and cannot say enough in praise of May's Wonderful Remedy. I has done so much for me and I am recommending it to other sufferers. I was a trained nurse in Marine and other hospitals years ago, therefore many come to me for advice. I certainly received great benefit from May's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. H. L. Perry & Son, and druggist everywhere."

H. S. DEPARTMENT AT EASTERN NORMAL

Educational Features Most Extensive and Elaborate Since Establishment of School

Officials of Eastern Normal announced with great enthusiasm that the high school this year is in the best of condition from an educational standpoint, better than it has been for years, and the term soon to be opened promises to be out of the ordinary in many respects, since there have been many innovations. A mere glance over the various departments and those in charge is conclusive evidence that there will be no lack of able instructors.

Mr. McClain and Miss Newell will give their undivided attention to it, while enough Normal teachers will give time to equal another full time teacher. The special departments, expression, physical education, home economics, manual training, etc., will be open to high school students. The high school classes will be limited in number to students in order to make such classes models for demonstration purposes. The splendid library will be open to high school students. Athletics for both boys and girls will be in the immediate charge of Prof. McClain, who will be assisted by Miss Hammond and Mr. Hembree. Two regular courses will be offered; one without foreign language and one with foreign language. It is not possible or necessary in an announcement like this to enumerate the advantages offered in the high school. The regents of the Normal support the school largely to make it a demonstration of what a small high school can and should be, in organization, in housing, in equipment, in administration and in instruction, ad so long as the board supports it is the policy to make it a model worthy of imitation.

Regular tuition fees are charged students who attend the high school, but such fees only support it in part.

POLICE CHIEF AYERS GIVES HIS TESTIMONY

"My Only Regret Is That I Didn't Meet Up With Tanlac Years Ago," Says Popular New York Officer.

"My experience with Tanlac has been remarkable and I feel that I would be dodging my duty not to come out and tell my friends about it," was the statement by W. E. Ayers, Chief of Police of Montour Falls, N. Y., in an interview a few days ago.

Mr. Ayers has been chief of police of Montour Falls continuously for 34 years, and although now 75 years of age, he performs the duties of his office with the same alertness and vigor that has been characteristic of him ever since he received his first appointment.

Mr. Ayers is not only widely known as an officer, but is also prominent as a man and citizen. In 1863, at the age of eighteen, he volunteered for service in Civil War, engaged in many of the fiercest battles, and after the struggle ended, he returned to his people and his home town, Montour, unscathed.

"For a good many years," said Mr. Ayers, "I have been subject to frequent and dreadful attacks of acute indigestion, and have tried about everything known in the way of medicines, but always with the same disappointing results until I got Tanlac.

"Whed these attacks came on me I had such terrible pains in the pit of my stomach that I would just double up like a jack knife, with both hands folded around me holding a hot water bag to my stomach. These spells with my stomach were the only thing

dreaded above all else because they meant the worst of misery and torture to me.

"About a month ago I began to read about Tanlac and was so impressed with what others said that I concluded to try it myself. Well, in my case it has come up to every good word I read about it. I had hardly finished by first bottle when I could tell it was doing the work.

"It is by far the best medicine I have ever come across. Why, I can now eat what I want with out fear of indigestion for Tanlac has put my stomach in fine condition. Tanlac has built up my whole system, adding to my weight and giving me strength I never thought possible for a man of my age to have. It has proved to be such a wonderful thing in my case that I am telling all my friends about it.

"I am back at my desk every day with energy and strength to tackle any task that may come up. They say man is only as old as he feels, and if that is true I am just about 45 and I can't find words to fully express just how wonderful I think Tanlac is. My only regret is that I did not meet up with it years ago, as it would have saved me so much suffering and unhappiness.

"If the rest of the people who are in poor health don't try Tanlac they'll certainly be the losers. I believe it will help anybody who gives it a fair trial."

Tanlac is sold in Richmond by Stockton and Son; in College Hill by Ginter Brothers; in Berea by Welch Department Stores. It

"ONE OF THESE DAYS"

A farmer I know says that—one of these days—he's going to make his farm home over into a modern home. "One of these days" he is going to put into use all the modern equipment that will be needed to make his farm power machinery, with his house fitted with modern lighting and with all the appointments that go to make for comfort and contentment in any home.

"One of these days!" Why not now? The farm home nowadays can be easily made as modern as a city home, no difference where the farm home lies. Modern heating is easily accomplished, for the hot air or hot water systems offered today are available for any locality. For other conveniences of light, power and running water, electricity offers the open sesame to these modern features, and the electricity can be had anywhere today, regardless of location. This is because today the farmer can buy his own small electric plant, and, what's more, he can run it himself, without any expert knowledge or assistance. The farm electric light plant has finally been developed to the point where it is just as dependable as any other piece of standard farm equipment.

This doesn't mean that the farmer can pick up just any combination of engine, generator and switchboard with some enterprising agent. But there are trustworthy and dependable farm electric plants and there is no necessity for the farmer buying any other kind. When he has secured the kind that has been tried and that is operating successfully by the thousand, he can be assured of electric lights for his house and barns, electric power for all the small machines like washing machines, churn cream separators, fanning mill, grindstone, vacuum sweeper, heat for the electric iron—in short, complete electric service that his family should be enjoying now instead of "One of these days."

Wed In Paris

Paris, Ky., Sept. 3—Catesby W. Spears, 44, and Miss Sallie C. Lockhart, 36, both of this city, were married Thursday afternoon at the home of the bride's mother, Mrs. E. F. Clay, Sr., on the Cynthiana pike, the ceremony being performed by Rev. William E. Sweeney, of Columbus, Ind., a lifelong friend and schoolmate of the groom. Miss Lockhart was the daughter of the late G. C. Lockhart, attorney. Mr. Spears is the junior member of the firm of E. F. Spears and Sons, a member of the Paris Board of Council and a member of the Bourbon County Road Commissioners.

BIG VAULT DOOR EN ROUTE

The big steel door for the vault being finished at the Southern National Bank is said to be en route and will arrive within a few days. The door, which is one of the most modern made, weighs 7,700 pounds, and will be placed upon arrival, when the new vault will be ready for use. The work has required several weeks and is an extensive affair.

AFTER FOUR YEARS

Richmond Testimonial Remains Unshaken

Time is the best test of truth. Here is a Richmond story that has stood the test of time. It is a story with a point which will come straight home to many of us.

Mrs. Nelson Ross, 419 Laurel street, Richmond, says: "My kidneys were weak and I had pains through my back and across my kidneys. At times I was nervous and dizzy. Doan's Kidney Pills, which I got at Middleton's Drug Store, soon made me better. I have often recommended Doan's Kidney Pills to others and consider them a splendid remedy."

No Trouble Since

Over four years later, Mrs. Ross said: "I have had no return of kidney trouble, since Doan's Kidney Pills cured me and I am always glad to recommend them for I know they are a good kidney remedy."

Price 60¢ at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills, the same that Mrs. Ross had."

MID-HARVEST OF TOBACCO AT HAND

Army of Men and Boys Busy Engaged in Caring For Crop That Will Average Well

This week will record a great amount of tobacco cutting in Madison county, and there are many happy producers, since they state they believe the production for the year will bring the average producer of tobacco to be a pretty fair way financially. The selling of tobacco this season, it is asserted, will bring about a different state of affairs. It is the intention of the average producer to have his production carefully graded, thus being able to estimate its worth the moment the price for the various grades is announced. It is believed there will be an additional grade owing to the rust. The recent rains worked wonders with the tobacco in the way of development, while the benefit to corn is said to be without estimate.

average well. This was not expected by many, and there are some who will not have a normal crop, while others will have, they admit, a greater and more extensive crop than last year.

Considerable tobacco raised within the limits of the city is being cut, and the quality with little exception is said to be good. There are some discolored plants as a result of the rust and blight, and it is believed for the first time in years there will be another standard or an extra quality to be reckoned with. This will be determined when the stripping is at hand, producers claim, since it is their intention to grade their tobacco this year as never before, since they are preparing to hold for a price that they consider reasonable. Many of them are known to be prepared to do this. Some state they will have to sell reasonably early, however, this element being in the minority, show-

Chamberlain's Colic and Diarrhoea Remedy in Michigan

Mrs. A. H. Hall, Caseville, Mich., says, "I wish to thank you for your grand good medicine, Chamberlain's Colic and Diarrhoea Remedy. We are never without it in the house, and I am sure it saved my baby's life this summer."

Mrs. Mary Carrington, Caseville, Mich., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for a year and it has always given prompt relief."

Secret of Energy These "Dog Days"

Eliminate poisons and congestion from stomach and bowels with Dr. Caldwell's Syrup of Pepsin

THERE is no time of the year when people should be more careful of their diet than during the hot summer months, but unfortunately it is the season when it is easiest to overdo. Cold foods, ices, uringe and overripe fruits are soon followed by cramps, heartburn, indigestion, constipation.

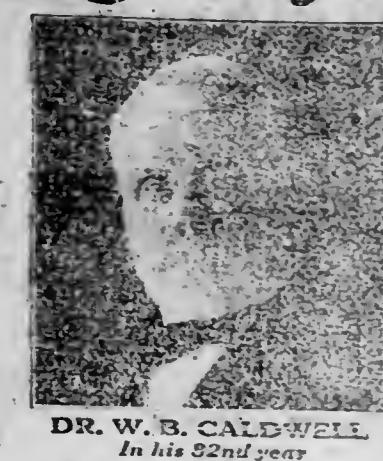

Do not wait until you have a splitting headache but when you feel yourself weak, bilious and constipated—that very night take a teaspoonful of Egyptian Senna and Pepsin, which is sold in drug stores under the name of Dr. Caldwell's Syrup of Pepsin. By morning your head will be relieved and the congestion gone. This will be a useful meal-time for a few days and you will have no further trouble.

Dr. Caldwell's Syrup of Pepsin is a combination of simple laxative herbs with potassium bromide in just the right favor for thirty years. We know of many thousands of households that are never without a bottle. Mr. Eugene McManus of Manayunk, Pa., was very

desperate until he patronized his druggist for a bottle of Syrup of Pepsin, and now he can retain and digest whatever he eats and is not subject to cramps, heartburn, indigestion, constipation.

Just try yourself a bottle of Dr. Caldwell's Syrup of Pepsin at a drug store and see the great good it will do you.

FREE Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup of Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

A strike in the Alabama coal fields has been ordered and is expected to Monday with many improvements into effect immediately. Just how many men will be effected is not known.

Georgetown schools will open on Monday with many improvements and a full quota of teachers after a prolonged struggle to obtain sufficient instructors.

Make every Acre do its Best

The same labor, same machinery, same land with good quality, dependable, tried fertilizer will give results.

APPRECIATION OF STREETS IS NEAR

Worse Conditions Found Without Looking Far Away—Contracting Firm Accommodating

While conditions arising from the street paving work are being condemned by some, these persons should make a little trip; just a little one, and they will find similar and worse conditions in various other cities in this section of the state where street work is being done and where it will not be finished even during the fall, and besides putting up with the nuisance, as they call it, they are paying from one-third to almost one-half as much more for maintaining the alleged nuisance in order to get new streets.

The effect of the work of building new streets will soon begin to be noticeable. The asphalt will soon make its appearance and within a short time afterwards there will be a street to be proud of and one appreciated by all. Many have little if any conception regarding the amount of work required and the changing necessary to establish a new street, especially of the asphalt variety. The changing of the curb and gutter is but one of the many things necessary.

The Lampton and Burks company is filling the contract with the city according to Hoyle. Besides this, they are not taking any undue advantage if a close scrutiny of the contract is made, but on the other hand, the city or county has asked to borrow nothing but it was readily and cheerfully given.

It is not a case of "pay back what you borrow" every time with this firm, a fact attested by both city and county officials. Some time ago there was immediate need of sand for some special bridge work to be completed at once. Mr. Glover, superintending the street work, said, "Sure, Mike I have just what you want; take what you need." The sand as well as some gravel was taken and put to immediate use. One city official wanted some of the dirt and crushed stone for which the company had paid. "Keep on taking until you get what you want, then stop," is what the city official got in the way of a reply to a question as to whether he could have a small supply—and there is no paying this back. Several thousand bricks were removed from one section of the city street crossings and Richmond wanted them—and Richmond got them without a word or a cent. One will not have to take lunch along to find contracting firms that will not do these things.

BOARD OF REGENTS TO MEET ON SEPTEMBER 13

The board of regents of Eastern Normal will hold a meeting on Monday, September 13, at which time there will be considerable business of much importance. There will be the consideration of further building, and this matter includes the feasibility or probability of rebuilding the gymnasium. The board contemplates a continuance of building. However, it may not be included in the list of immediate action. There will be other buildings of lesser importance given attention and this work will be taken up and finished this season, according to present plans.

HUNTING DOVES. THAT'S ALL
Messrs. R. E. Turley, Spears Turley and Harold Oldham took their guns (shotguns) Friday afternoon and hied away to the field in quest, they said, of doves. Some real good friend, it is said, got busy on the telephone and sent the message to the effect that the men were country-bound, with the result that the men had a difficult time in getting a place to hunt. One even said they were placed in a gulley and allowed to shoot against a stone wall. This is not credited, however, by others who know their prowess with the gun.

CLEVER STILL MAKER ONCE LIVED HERE

Several local people have told the Daily Register that the young man mentioned in the following from the Lexington Herald formerly worked in Richmond garages and is well known here:

Built into the water and gas system of the operator's house, one of the most perfect stills was captured by Prohibition Officers T. P. Oliver and J. H. Hanlon in the home of William Day, of Winchester, Tuesday afternoon. Day was given his examining trial before United States Commissioner Charles N. Wiard at Lexington Tuesday night and, pleading guilty, he was held to the September grand jury on bond of \$300, which he executed. A telephone call from the Winchester police department informed local prohibition officers of the existence of the still, and they reached Winchester about noon. The raid was made in the afternoon, Day having been followed to his home and immediately apprehended, so that he had no time to remove or conceal the still. The still consisted of a copper boiler in which the mash was boiled by means of steam generated in the hot water system of the house. The vapor was conducted off by means of a home-made curved pipe, very cleverly soldered to lead to a 15-coil copper worm taken from a gas water heater. This was contained in a flake condenser so connected with the water system that fresh water was kept continually flowing through it. The whole was so set in the kitchen that it could be removed and concealed at less than five minutes' notice. Day, who is a mechanic, said that he built the still himself and had been operating it for about two months.

PROSECUTION OF HANDLERS OF EGGS

Threatened Unless Law Is Obeyed—Millions Lost According To Violations Reported

The State Board of Health reports complaints are being received to the effect that the regulations governing the handling of eggs have been violated and announcements have been made concerning the law, resulting in letters being sent to the prosecuting attorneys of the various cities and prosecution will be urged where there is a continuance. Immense quantities have been lost, according to the officials, as a result of the ignorance upon the part of some and wilful dis-

regard of the law by others.

It was estimated in 1917 that 10,015,000 cases of eggs were lost as food due to rotting and improper handling. This meant a financial loss of over \$100,000,000. The candling of eggs by buyers and shippers will force them on the market while fresh and prevent shipping of rotten eggs and greatly reduce the loss.

The regulation to insure this candling can be condensed as follows:

Candle all eggs bought or sold between the dates of May 15 and January 15 of each year.

Farmers, country merchants, hucksters and shippers can easily and cheaply save eggs and money by selling them while fresh and observing the rule that requires an egg candling certificate in every case of eggs put on the market.

Buyers of eggs should candle all eggs at the time of purchase. Pay only for good edible eggs, returning the bad ones to the producer. Keep statement of purchases showing the number of good eggs and bad eggs in each lot. Put candling certificate in each egg case.

Shippers of eggs should ship as soon as possible. See that all eggs have candling certificate in case.

Receivers and brokers should refuse to accept any case of eggs that does not contain a properly signed and dated candling certificate.

At present the inspectors of the federal and state department are making inspections of shipments of eggs, and violations of the federal law in interstate shipments and of the board of health rulings in interstate shipments will be prosecuted.
